

Insta360 Link 2 | Insta360 Link 2C

The AI-powered 4K webcam.

Product Intro

Link 2 and Link 2C are affordable 4K webcams with exceptional video and audio quality. With a 2-axis gimbal and a standard model, they provide a seamless user experience for business professionals, educators, and live streamers. The high-performance 1/2" sensor ensures quality 4K video, and an advanced audio algorithm delivers AI-powered noise cancellation. With the all-new Magnetic Mount, and specialized modes including AI Tracking, Auto Framing, Gesture Control, customizable backgrounds, and Natural Bokeh, they set new standards in video conferencing and live streaming.

Premium Imaging

Superb image quality for any environment, ensuring detailed visuals with HDR and exceptional quality up to 4K30fps, even in dimly lit rooms.

Professional Audio Quality

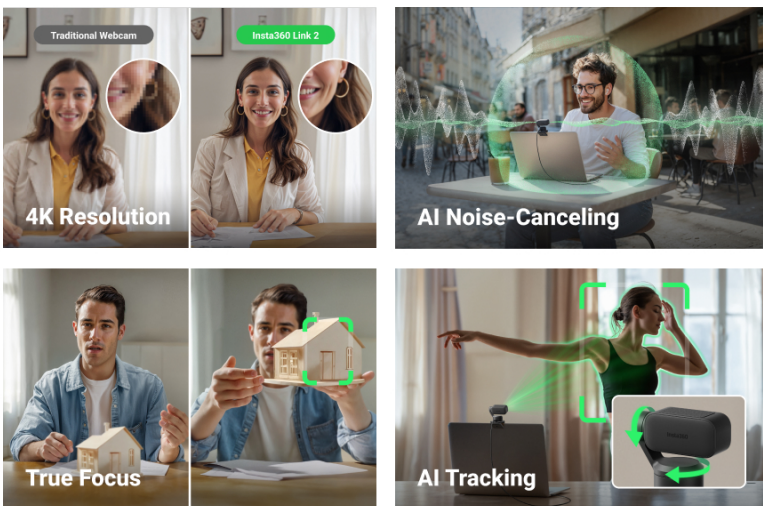

Advanced AI audio algorithms provide best-in-class audio and unrivaled noise reduction in any environment, matching audio quality from professional microphones.

Intuitive AI-Powered Control

Move freely and stay in the center with precise AI Tracking & Auto Framing. For easier control, use gestures to start AI Tracking, zoom, and activate Smart Whiteboard Mode.

Versatile Modes

DeskView Mode squares off an area for level overhead presentations, Smart Whiteboard Mode automatically recognizes and enhances a whiteboard for a clearer view, and Privacy Mode turns off the camera and microphone for greater privacy protection.
